SUMMARY OF INDUSTRY

The Indian Infrastructure Sector Market size is estimated at USD 223.59 billion in 2025, and is expected to reach USD 353.11 billion by 2030, at a CAGR of 9.57% during the forecast period (2025-2030). India's aspirations to attain developed nation status by 2047 heavily rely on bolstering its infrastructure, a pivotal driver for creating livable, climate-resilient, and inclusive cities that fuel economic growth. This commitment is evident in the government's allocation of 3.3% of GDP to the infrastructure sector in FY2025, with a notable emphasis on transport and logistics.

Within the transport sector, roads and highways claim the lion's share, trailed by railways and urban public transport. The government has set ambitious goals, aiming to construct a 2 lakh-km national highway network by 2025, expand airports to 220, operationalize 23 waterways by 2030, and establish 35 Multi-Modal Logistics Parks (MMLPs).

As the transport sector grapples with sustainability concerns, the private sector is well-positioned to leverage the favorable policy landscape and ramp up its infrastructure investments.

Public-private partnerships (PPPs) have emerged as a pivotal avenue for private sector involvement, notably in projects spanning airports, ports, highways, and logistics parks across India. While the central government and states have extended support through various schemes, India's ambition of becoming a USD 5 trillion economy by 2026 necessitates a substantial impetus from PPPs.

INTERNAL RISK FACTORS

- 1. We are dependent on our sub-contractors to perform various portions of the contracts awarded to us. Such dependency exposes us to certain risks such as availability and performance of our sub-contractors**

Some or all of our planned projects may not be completed by their expected completion dates or at all. Such delays may adversely affect our business, results of operations and financial condition. As contractors, some or all our planned projects may be subject to significant changes and modifications from currently estimated management plans and timelines of the developers, as a result of factors outside our control, including, among others:

Defects or challenges will lead to failure or delay in completion of the projects:

- Failure or delay in securing necessary statutory or regulatory approvals and permits for us to develop some of our projects.
- Natural disasters and weather conditions.
- Reliance on third-party sub-contractors and the ability of third parties to complete their services on schedule and on budget; and

Such changes and modifications to our timelines may have a significant impact on our planned projects, and consequently, we may not complete these projects as contemplated, or at all, which may have an adverse effect on our business, results of operations and financial condition. In the event of occurrence of such events, could result in disruption in our business activities, which could adversely affect our results of operations.

There can be no assurance that our Company will not incur losses in the future, which may have an adverse effect on our reputation and business. For further details, kindly refer to the section titled '*Financial Information*' on page 60 of this Letter of Offer.

2. We require number of approvals, NOCs, licenses in ordinary course of our Business.

We need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course of our business. Any failure to renew the approvals that will expire, or to failure/delay to apply for and obtain the required approvals, licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action.

3. We cannot assure you that the construction of our projects/work sites will be free from any and all defects.

We are committed to maintain quality of works and also adheres to all the standards, even though we cannot assure you that we will always finish the construction of our projects/work sites in accordance with the requisite specifications or that the construction of our projects/work sites will be free from any and all defects. In the event of discovery of defects/faults in our work, or due to damages to our construction due to factors beyond our control, or any of the other reasons, we may incur significant contractual liabilities and losses under our projects contracts and such losses may materially and adversely affect our financial performance and results of operations. Further, it may result in cancellation by customers of any commitment to the projects and/ or refund of any advance deposited with us by any customer due to dissatisfaction among our customers, which may affect our business, financial condition and results of operations.

4. We are dependent on third parties for the supply of raw materials, services and finished goods.

Our business is significantly affected by the availability, cost and quality of the raw materials and bought out items, which we need to construct, develop and provide for our projects, and services. The prices and supply of raw materials and bought out items depend on factors not under our control, including domestic and international general economic conditions, competition, availability of quality suppliers, production levels, transportation costs and import duties.

Although we may enter into back-to-back supplier contracts or provide for price contingencies in our contracts to limit our exposure, if, for any reason, our primary suppliers of raw materials and bought out items should curtail or discontinue their delivery of such materials to us in the quantities we need, provide us with raw materials and bought out items that do not meet our specifications, or at prices that are not competitive or not expected by us, our ability

to meet our material requirements for our projects could be impaired, our construction schedules could be disrupted and our operations and business could suffer.

Further, we depend on few suppliers who cater to a significant part of our business needs. If any of our key suppliers for a particular project is unable to continue providing the raw materials and bought out items we need, at prices and on terms and conditions we consider acceptable, we will be required to obtain these items from other suppliers and our results of operations and business could suffer as a result.

5. **We may be unable to identify or acquire new projects and our bids for new projects may not always be successful, which may stunt our business growth further may cause underutilization of our workforce.**

Undertaking new projects depends on various factors such as our ability to identify projects on a cost-effective basis or integrate acquired operation into our existing business. If we are unable to identify or acquire new projects matching our expertise and profit expatiation, we may be subject to uncertainties in our business.

As a part of our business, we bid for new projects on-going basis. Projects are awarded following competitive bidding processes and satisfaction of other prescribed pre-qualification criteria. Once the prospective bidders satisfy the pre-qualification criteria of the tender, the project is usually awarded based on the price of the contract quoted by the prospective bidder, therefore we cannot assure about successful bids of projects in future every time and this may lead to adverse impact on financial performance of the Company.

6. **On successful bidding we need to provide performance security and any failure in doing so may result in forfeiture of the bid security and termination of the contract.**

In our business, on successful bidding of any project by our Company, we are required to deliver a performance security or bank guarantee to the authority for each project and are also required to ensure that the performance security is valid and enforceable until we remedy any defects during the defect liability period under the relevant contract. Delay or inability in providing a performance security within the stipulated period with respect to the project may result in termination of the contract or enforcing of the bid security which can adversely affect our financial performance.

7. **Our insurance policies do not cover all risks, specifically risks like terrorism, etc. In the event of the occurrence of such events, our insurance coverage may not adequately protect us against possible risk of loss.**

Our Company has not obtained insurance coverage in respect of certain risks. If we suffer a significant uninsured loss in our business, financial condition and results of operations may be materially and adversely affected.

8. **Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.**

Modernization and technology up-gradation is essential to provide better products. Although we strive to keep our technology in line with the latest standards, we may be required to implement new technology or upgrade the existing employed by us. Further, the costs in upgrading our technology could be significant which could substantially affect our finances and operations.

9. **We are highly dependent on our Promoter and our management team and key personnel and the loss of any key team member may adversely affect our business performance.**

Our Promoter, Directors, Management team, and Key Managerial Personnel have been instrumental in the growth and development of our Company. In particular, the active involvement

of our management team and key personnel in our operations, including through strategy, direction, and relationships have been integral to our development and business. The loss of any of these persons would have a material adverse effect on our operations.

Our businesses are dependent upon a core and senior management team which oversees the day-to-day operations, strategy and growth of our business. Our success is largely dependent on our management team which ensures the implementation of our strategy. If one or more members of our key management team were unable or unwilling to continue in their present positions, such persons would be difficult to replace and our business, results of operations, financial condition, cash flows and prospects could be adversely affected.

10. We require certain approvals and licenses in the ordinary course of business and the failure to successfully obtain/renew such registrations would adversely affect our operations, results of operations and financial condition

We are governed by various laws and regulations for our business and operations. We are required, and will continue to be required, to obtain and hold relevant licenses, approvals and permits at state and central government levels for doing our business. The approvals, licenses, registrations and permits obtained by us may contain conditions, some of which could be onerous.

These laws and regulations governing us are increasingly becoming stringent and may in the future create substantial compliance or liabilities and costs. While we endeavour to comply with applicable regulatory requirements, it is possible that such compliance measures may restrict our business and operations, result in increased cost and onerous compliance measures, and an inability to comply with such regulatory requirements may attract penalty.

Furthermore, we cannot assure you that the approvals, licenses, registrations and permits issued to us will not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any suspension or revocation of any of the approvals, licenses, registrations and permits that has been or may be issued to us may affect our business and results of operations.

11. Our Company has experienced negative cash flow in the past and may continue to do so in the future, which could have a material adverse effect on our business, prospects, financial condition, cash flows and results of operations.

Our Company has experienced negative net cash flow in operating activities in the recent past, the details of which are provided below:

(₹ in lakhs)

Particulars	Audited	
	March 31, 2025	March 31, 2024
Net Cash Flow from / (used in) Operating Activities	(2507.90)	(50.02)
Net Cash Flow from / (used in) Investment Activities	(730.88)	(774.96)
Net Cash Flow from / (used in) Financing Activities	3239.82	831.77

We may incur negative cash flows in the future which may have a material adverse effect on our business, prospects, results of operations and financial condition.

12. Delay in raising funds from the Right issue could adversely impact the implementation schedule.

The proposed expansion, as detailed in the section titled “Objects of the Issue” is to be funded from the proceeds of this Issue. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule.

We therefore, cannot assure that we would be able to execute the expansion process within the given time frame, or within the costs as originally estimated by us. Any time overrun or cost overrun may adversely affect our growth plans and profitability.

13. Our Company will not distribute the Letter of Offer and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.

Our Company will dispatch this Letter of Offer, Rights Entitlement Letter and Application Form (the "Offering Materials") to such Shareholders who have provided an address in India for the service of documents. The Offering Materials will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e- mail. Presently, there is a lack of clarity under the Companies Act, 2013, and the rules thereunder, with respect to the distribution of Offering Materials to retail individual shareholders in overseas jurisdictions where such distribution may be prohibited under applicable laws of such jurisdictions.

External Risk Factors

Risk Relating to India

1. Adverse global economic and geopolitical developments, including financial instability in other countries, the Israel-Iran conflict, volatility in crude oil prices, and changes in U.S. Federal Reserve policies, may increase volatility in Indian financial markets and adversely affect our business and financial performance.

The Indian economy and financial markets are significantly influenced by global economic and geopolitical developments, particularly those in emerging markets and major global economies. While economic conditions differ from country to country, investor sentiment and capital flows are often impacted by events in other markets, which can have a cascading effect on Indian markets.

For instance, currencies of several Asian countries have historically experienced depreciation against the U.S. dollar due to diverse macroeconomic pressures. A loss of investor confidence in the financial systems of other emerging economies may trigger increased volatility in Indian financial markets and have a broader negative impact on India's economic outlook.

Furthermore, heightened geopolitical tensions — such as the ongoing Israel-Iran conflict have introduced increased uncertainty and risk aversion in global markets. Escalation in the Middle East can lead to supply chain disruptions and instability in crude oil supplies, directly affecting oil prices. Given India's dependency on oil imports, any sustained increase in crude oil prices could adversely impact inflation, the current account deficit, and overall economic growth, which may, in turn, affect investor sentiment and our business operations.

Additionally, ongoing concerns regarding potential interest rate hikes by the U.S. Federal Reserve, aimed at combating inflation, have contributed to global financial market volatility and have led to capital outflows from emerging markets, including India. Rising U.S. interest rates tend to strengthen the U.S. dollar and reduce the relative attractiveness of emerging market investments, thereby increasing the cost of external borrowing and impacting foreign investment inflows into India.

The global credit and equity markets have previously experienced substantial dislocations, liquidity disruptions, and corrections, and may continue to do so in the current uncertain environment. While governments and central banks in various jurisdictions, including India, have introduced policy measures aimed at stabilizing financial markets, the overall effectiveness and long-term impact of these initiatives remain uncertain.

In the event of prolonged geopolitical tensions, sharp fluctuations in global oil prices, sustained monetary tightening by developed economies, or any significant financial disruption, our business operations, future financial performance, and the trading price of our Equity Shares could be adversely affected.

2. Natural or man-made disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.

Natural disasters (such flooding and earthquakes), epidemics, pandemics such as COVID-19 and man-made disasters, including acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our properties and projects and generally reduce our productivity and may require us to evacuate personnel and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India or countries to which we sell or propose to sell our products could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares. A number of countries in Asia, including India, as well as countries in other parts of the world, are susceptible to contagious diseases and, for example, have had confirmed cases of diseases such as the highly pathogenic H7N9, H5N1, and H1N1 strains of influenza in birds and swine and more recently, the SARS-CoV-2 virus and the monkeypox virus. Another outbreak of any new variant of COVID-19 pandemic such as the new JN.1 variant or future outbreaks of SARS-CoV-2 virus or a similar contagious disease could adversely affect the global economy and economic activity in the region. As a result, any present or future outbreak of a contagious disease could have a material adverse effect on our business and the trading price of the Equity Shares.

3. Changing laws, rules and regulations and legal uncertainties, including any adverse application of corporate and tax laws, may adversely affect our business, prospects and results of operations.

The regulatory environment in which we operate is subject to changes as may be notified by the government and other regulatory authorities. Any change in Indian tax laws could adversely affect our operations. The Government of India announced the Union Budget for 2026, following which the Finance Bill, 2025 (“**Finance Bill**”) was introduced in the Lok Sabha on February 1, 2025. The Finance Bill has received assent from the President of India on March 29, 2025, and has been enacted as the Finance Act, 2025. The Finance Act, 2025 has made various amendments to taxation laws in India. Unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations, and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs relating to compliance with such new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent, may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

We cannot predict whether any new tax laws or regulations impacting our operations will be enacted, what the nature and impact of the specific terms of any such laws or regulations will be or whether, if at all, any laws or regulations would have an adverse effect on our business. There is no certainty on how such amendments will impact our business, operations or the industry in which we operate. In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs relating to compliance with such new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

4. A downgrade in ratings of India, may affect the trading price of the Equity Shares.

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India.

Any further adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an adverse effect on our ability to fund our growth on favourable terms and consequently adversely affect our business and financial performance and the price of the Equity Shares.

5. If the rate of Indian price inflation increases, our business and results of operations may be adversely affected.

Inflation rates in India have been volatile in recent years, and such volatility may continue. In recent years, India has experienced consistently high inflation, which has increased the price of, among other things, our rent and personnel cost. If this trend continues, we may be unable to accurately estimate or control our costs of production and purchase, which could have an adverse effect on our business and results of operations. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to adequately pass on to our clients, whether entirely or in part, and may adversely affect our business and financial condition. If we are unable to increase our revenues sufficiently to offset our increased costs due to inflation, it could have an adverse effect on our business, prospects, financial condition, results of operations and cash flows. Further, the Government of India has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. We cannot assure you that Indian inflation levels will not worsen in the future.

6. As a listed company, our Company is subject to certain obligations and reporting requirements under the SEBI Listing Regulations, and we must comply with other SEBI regulations as may be applicable to us. Any non-compliance / delay in complying with such obligations and reporting requirements may render us liable to prosecution and/or penalties.

The Equity Shares of our Company are listed on the BSE. We are, therefore, subject to the obligations and reporting requirements prescribed under the SEBI Listing Regulations, and we must comply with other SEBI regulations as may be applicable to us. While our Company strives to meet all such obligations and reporting requirements, we cannot assure you that there will be no non-compliances in the future, and we cannot assure you that no penalties will be levied against our Company. Non-compliance under the SEBI regulations are usually subject to penalties, warnings, and show-cause notices by SEBI and the Stock Exchange. Any regulatory action or development that is initiated against us could affect our business reputation, divert management attention and result in a material adverse effect on our business prospects and financial performance, and the trading price of the Equity Shares.

Risks Relating to our Rights Equity Shares and this Issue

1. Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised and may be subject to change based on various factors, some of which are beyond our control.

Our funding requirements and deployment of the Net Proceeds are based on internal management estimates basis current market conditions and have not been appraised by any bank or financial institution or other independent agency. Further, in the absence of such independent appraisal, our funding requirements may be subject to change based on various factors which are beyond our control. The deployment of the Net Proceeds will be at the discretion of our Board. However, the deployment of the Net Proceeds will be monitored by the Monitoring Agency. Accordingly, prospective investors in the Issue will need to rely upon our management's judgment with respect to the use of the Net Proceeds. For details, please see "Objects of the Issue" on page 56.

2. Recent changes to the regulatory framework for rights issues, including faster timelines and modified procedures, may lead to investor confusion or non-compliance, which could adversely affect the subscription process.

SEBI, through the notification of the SEBI (Issue of Capital and Disclosure Requirements) (Amendment) Regulations, 2025, dated March 3, 2025, and published in the Official Gazette on March 8, 2025 (Gazette ID CG-DL-E-08032025-261516), has significantly amended the regulatory framework governing rights issues. This has been followed by a circular dated March 11, 2025, which introduces the concept of Faster Rights Issues and allows for flexibility of allotment to specific investors, while also imposing stricter timelines and procedural requirements.

The amended framework applies to all Rights Issues approved by the Board of Directors on or after April 7, 2025. The rapid implementation of this new framework may pose operational challenges for investors who are unfamiliar with the revised process, including faster turnaround times, stricter compliance with demat credit timelines, and procedural differences from earlier rights issues.

Any failure by investors to understand or comply with the new regulations—such as timely demat credit for Rights Entitlements (REs), correct application through ASBA, or submission of updated details—may lead to their applications being rejected or rendered invalid. Investors are advised to read this Letter of Offer carefully and follow all instructions in strict adherence to the updated regulatory framework to avoid any adverse impact on their ability to participate in the Issue.

For detailed information, see the section “Terms of the Issue” on page 67 of this Letter of Offer.

3. Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Rights Equity Shares to the Applicant’s demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operations or financial condition, or other events affecting the Applicant’s decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of our Equity Shares will not decline below the Issue Price. To the extent the market price for our Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Rights Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants’ ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

4. Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.

Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure of completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the

Issue Closing Date. Further in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, please see “Terms of the Issue” on page 67.

5. Your ability to acquire and sell the Equity Shares offered in the Issue is restricted by the distribution, solicitation and transfer restrictions set forth in this Letter of Offer.

No actions have been taken to permit a public offering of the Equity Shares offered in the Issue in any jurisdiction except India. As such, our Equity Shares have not and will not be registered under the Securities Act, any state securities laws of the United States or the law of any jurisdiction other than India.

Further, your ability to acquire Equity Shares is restricted by the distribution and solicitation restrictions set forth in this Letter of Offer. For further information, please see “Notice to Investors” and “Other Regulatory and Statutory Disclosures – No Offer in the US” and “Restrictions on Purchases and Resales” on pages 15, 70 and 107, respectively. You are required to inform yourself about and observe these restrictions. Our representatives, our agents and us will not be obligated to recognize any acquisition, transfer or resale of the Equity Shares made other than in compliance with applicable law.

6. Investors will be subject to market risks until our Equity Shares credited to the investor’s demat account are listed and permitted to trade.

Investors can start trading the Rights Equity Shares Allotted to them only after they have been credited to an investor’s demat account, are listed and permitted to trade. Since our Equity Shares are currently traded on the Stock Exchange, investors will be subject to market risk from the date they pay for the Rights Equity Shares to the date when trading approval is granted for the same. Further, there can be no assurance that the Rights Equity Shares allocated to an investor will be credited to the investor’s demat account or that trading in such Equity Shares will commence in a timely manner.

7. Any future issuance of Equity Shares by our Company may dilute your shareholding and adversely affect the trading price of our Equity Shares.

Any future issuance of Equity Shares may dilute your shareholding in our Company. Any future equity issuances by us may adversely affect the trading price of our Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares. We cannot assure you that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

8. Equity Shares may experience price and volume fluctuations.

The market price of the Equity Shares can be volatile as a result of several factors beyond our control, including volatility in the Indian and global securities markets, our results of operations, the performance of our competitors, developments in the Indian finance and lending sector, changing perceptions in the market about investments in this sector in India, investor perceptions of our future performance, adverse media reports about us or our sector, changes in the estimates of our performance or recommendations by financial analysts, significant developments in India’s economic liberalization and deregulation policies, and significant developments in India’s fiscal regulations. In addition, the stock Exchange may experience significant price and volume fluctuations, which may have a material adverse effect on the market price of the Equity Shares.

General or industry specific market conditions or stock performance or domestic or international macroeconomic and geopolitical factors unrelated to our performance also affect the price of the Equity Shares. For these reasons, investors should not rely on recent trends to predict future share prices, results of operations

or cash flow and financial condition.

9. No market for the Rights Entitlements may develop and the price of the Rights Entitlements may be volatile.

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchange during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others. Factors affecting the volatility of the price of the Equity Shares, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse impact on the trading price of the Rights Entitlements. Since the trading of the Rights Equity Shares will be on a separate segment compared to the Equity Shares on the floor of the Stock Exchange, the trading of Rights Equity Shares may not track the trading of Equity Shares.

10. Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.

Under the Companies Act, a company having share capital and incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution of the Company.

However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional interests in our Company would be diluted.

11. Investors may be subject to Indian taxes arising out of capital gains on sale of the Rights Equity Shares.

Under the current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Additionally, a securities transaction tax (“STT”) is levied both at the time of transfer and acquisition of the equity shares (unless exempted under a prescribed notification), and the STT is collected by an Indian stock exchange on which equity shares are sold. Any gains realized on the sale of equity shares held for more than 12 months are subject to long term capital gains tax in India. Such long-term capital gains exceeding ₹100,000 arising from the sale of listed equity shares on the stock exchange are subject to tax at the rate of 12.5% (plus applicable surcharge and cess). This beneficial provision is, inter alia, subject to payment of STT. Further, any capital gains realised on the sale of listed equity shares of an Indian company, held for more than 12 months, which are sold using any platform other than a recognized stock exchange and on which no STT has been paid, will be subject to long-term capital gains tax in India at the rate of 12.5% (plus applicable surcharge and cess), without indexation benefits.

Further, any capital gains realized on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax in India at the rate of 20% (plus applicable surcharge and cess), subject to STT being paid at the time of sale of such shares. Otherwise, such gains will be taxed at the applicable rates.

Capital gains arising from the sale of the Rights Equity Shares will not be chargeable to tax in India in cases

where relief from such taxation in India is provided under a treaty between India and the country of which the seller is resident and the seller is entitled to avail benefits thereunder, subject to certain conditions. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Rights Equity Shares.

Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning, investing or trading in the Rights Equity Shares.

12. Restrictions on daily movements in the trading price of our Equity Shares may adversely affect a shareholder's ability to sell Equity Shares or the price at which Equity Shares can be sold at a particular point in time.

Stock Exchange may impose restrictions on the movements in trading price of our Equity Shares. Stock Exchange are not required to inform us of such restrictions and they may change without our knowledge. In the event such restrictions are imposed, there can be no assurance regarding the ability of shareholders to sell Equity Shares or the price at which shareholders may be able to sell their Equity Shares.

13. The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form may lapse in case they fail to furnish the details of their demat account to the Registrar.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI ICDR Master Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form. Our Company has opened a separate demat suspense escrow account (namely, "**PVV INFRA RIGHTS ISSUE SUSPENSE ESCROW DEMAT ACCOUNT**") ("**Demat Suspense Account**") and would credit Rights Entitlements on the basis of the Equity Shares: (a) held by Eligible Equity Shareholders which are held in physical form as on Record Date; (b) which are held in the account of the Investor Education and Protection Fund ("IEPF") authority; (c) of the Eligible Equity Shareholder whose demat accounts are frozen or where the Equity Shares are lying in the unclaimed suspense account / demat suspense account (including those pursuant to Regulation 39 of the SEBI LODR Regulations) or details of which are unavailable with our Company or with the Registrar on the Record Date or where Equity Shares have been kept in abeyance or where entitlement certificate has been issued or where instruction has been issued for stopping issue or transfer or where letter of confirmation is lying in escrow account; (d) where credit of the Rights Entitlements have returned/reversed/failed for any reason; or (e) where ownership is currently under dispute, including any court or regulatory proceedings or where legal notices have been issued, if any.

Our Company shall credit the Rights Entitlements to the Demat Suspense Account on the basis of information available with our Company and to serve the interest of relevant Eligible Equity Shareholders to provide them with a reasonable opportunity to participate in the Issue. The credit of the Rights Entitlements to the Demat Suspense Account by our Company does not create any right in favour of the relevant Eligible Equity Shareholders for transfer of Rights Entitlement to their demat account or to receive any Equity Shares in the Issue. With respect to the Rights Entitlements credited to the Demat Suspense Account, the Eligible Equity Shareholders are required to provide relevant details (such as applicable regulatory approvals, self-attested PAN and client master sheet of demat account, details/records confirming the legal and beneficial ownership of their respective Equity Shares, etc.) to our Company or the Registrar no later than two clear Working Days prior to the Issue Closing Date, i.e., by Tuesday, February 17, 2026 to enable credit of their Rights Entitlements by way of transfer from the Demat Suspense Account to their demat account at least one day before the Issue Closing Date, to enable such Eligible Equity Shareholders to make an application in this Issue, and this communication shall serve as an intimation to such Eligible Equity Shareholders in this regard. In the event that the Eligible Equity Shareholders are not able to provide relevant details to our Company or the Registrar by the end of two clear Working Days prior to the Issue Closing Date, Rights Entitlements credited to the Demat Suspense Account shall lapse and extinguish in due course and such Eligible Equity Shareholder shall not have any claim against our Company and our Company shall not be liable to any such Eligible Equity Shareholder in any form or manner and such lapsing of Rights Entitlement may dilute and adversely impact the interest of certain Eligible

Equity Shareholders. For details, please see “Terms of the Issue” beginning on page 67.

- 14. The Eligible Equity Shareholders holding Equity Shares in physical form will have no voting rights in respect of Rights Equity Shares until they provide details of their demat account and Rights Equity Shares are transferred to such demat account from the demat suspense account thereafter.**

In accordance with the SEBI ICDR Master Circular, the credit of Rights Entitlement and Allotment of Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Eligible Equity Shareholders holding Equity Shares in physical form shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Eligible Equity Shareholders holding Equity Shares in physical form are requested to furnish the details of their demat account to the Registrar no later than two clear Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Eligible Equity Shareholders holding Equity Shares in physical form who do not furnish the details of their demat account to the Registrar no later than two clear Working Days prior to the Issue Closing Date shall lapse. Further, pursuant to a press release dated December 3, 2018, issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares). For further information, please see “Terms of the Issue” beginning on page 67.

- 15. SEBI has recently, by way of Master Circular dated November 11, 2024 revised and consolidated the regulatory framework governing rights issues, and non-compliance with the new procedures may adversely affect potential investors ability to subscribe to the Rights Equity Shares.**

SEBI, through its Master Circular bearing reference no. SEBI/HO/CFD/PoD-1/P/CIR/2024/0154 dated November 11, 2024, has rescinded its earlier circulars dated January 22, 2020, May 6, 2020, July 24, 2020, January 19, 2021, and April 22, 2021, and issued updated guidelines to streamline the rights issue process. The new framework mandates, among other things, minimum notice periods to stock exchanges, the procedure for credit and trading of Rights Entitlements (REs), and application requirements strictly through the ASBA facility.

In accordance with the revised norms:

- Rights Entitlements are credited in dematerialized form before the issue opening date;
- Physical shareholders must furnish demat account details at least two working days prior to issue closure for RE credit;
- REs are traded on the stock exchange platform under T+1 settlement and trading closes at least three working days prior to issue closure.
- No withdrawal of applications is permitted post issue closing date.

While these measures aim to enhance efficiency and investor convenience, any failure on the part of investors to timely comply with the procedures prescribed in the Master Circular—including updating demat details, monitoring RE credits, or applying within the prescribed timelines—may lead to rejection or failure of their application. Investors are advised to carefully read and follow the instructions in this Letter of Offer and the SEBI Master Circular to ensure successful participation in the Issue. For details, see “Terms of the Issue” on page 67 of this Letter of Offer.

- 16. Non-receipt of complete Call Money(ies) may have an impact of a consequential shortfall in Net Proceeds and shall also result in forfeiture of the Rights Equity Shares allotted to such Eligible Equity Shareholders who fail to pay Call Money(ies).**

The Calls shall be deemed to have been made at the time when the resolution authorizing such calls is passed at the meeting of Board. The Calls may be revoked or postponed at the discretion of our Board, from time to time. Pursuant to the provisions of the Articles of Association, investors will be given at least 14 days’ notice in writing for the payment of the Calls. Our Board may, from time to time at its discretion, extend the time fixed for the

payments of the Calls. Our Company, at its sole discretion, may send reminders for the calls as it deems fit, and if it does not receive the Call Money(ies) as per the timelines stipulated, it would forfeit the Application Money. Non-receipt of complete Call Money(ies) and a consequential forfeiture of the Application Money may lead to a shortfall in the Net Proceeds, which may have to be met out of internal accruals and may our business, operating expenditure and growth opportunities. For details, see “Objects of the Issue” on page 50. The non-receipt of the Call Monies within the timelines stipulated would also result in forfeiture of the Rights Equity Shares of such Eligible Equity Shareholders in accordance with the Companies Act, 2013 and Articles of Association.

17. Risk of Forfeiture and Loss of Amount Paid by Investors

In the event of failure by investors to pay call monies within the prescribed timelines (unless extended by the Board), the Company may forfeit the partly paid-up Rights Equity Shares along with the application money and/or call monies already paid. Such forfeiture may result in a complete loss of the investment made by such defaulting investors in respect of the Rights Equity Shares.

18. Risk of Limited Investor Familiarity with Partly Paid-Up Equity Structures

Partly paid-up equity shares and multi-call structures are not frequently used in the Indian securities market. Limited investor familiarity with such structures may result in lower participation, misunderstanding of payment obligations, or increased defaults on call monies.

Assumptions for Holding Level (Days)

Particulars (Holding Days)	March 31, 2024 (Days)	March 31, 2025 (Days)	March 31, 2026 (Days)	March 31, 2027 (Days)

Trade Payable- No. of Days	45	30	20	15
Other current liabilities	30	20	20	15
Short Term Provisions	20	20	20	15

Justification of Holding Level for Last Year and Estimates for FY 2025 , FY 2026 & FY 2027:

- **Inventories:** As sales continue to rise, the total amount of Inventory will also increase. However, to meet our working capital needs, we aim to reduce the Inventory cycle from 30 days to 15 days from the financial year 2023-24 to 2026-2027. This decrease in Inventory days would enhance our efficiency and strengthen our financial position.
- **Trade Receivables:** As sales continue to rise, the total amount of trade receivables will also increase. However, to meet our working capital needs, we aim to reduce the trade receivable cycle from 180 days to 90 days from the financial year 2023-24 to 2026-2027. This reduction in trade receivable days would enhance our efficiency and strengthen our financial position.
- **Other current assets, including other financial assets:** We are anticipating growth in prepaid expenses and promotion activities on account of the growth in turnover as anticipated by the Company.
- **Trade Payables:** Currently, the trade payables days are 30 days in the Financial Year 2024-2025. Looking ahead to the Financial Year 2026-27, we project an average operating trade payables payment period of 15 days for all the vendors.
- **Other Current Liabilities:** With the anticipated increased turnover, the Company envisages increase in liabilities towards additional staffing requirements, other office overheads, marketing expenses, etc.
- **Short Term Provisions:** With the anticipated rise in net profit, the Company's income tax liability is expected to increase accordingly. Hence, an additional provision for income tax has been estimated to account for the higher profitability.

Justification for utilization of Working Capital requirement for financial year 2025-26 & 2026-27:

We have estimated a substantial growth in turnover Lakhs during the Financial Year 2025-26& 2026-27

The Working capital requirement is calculated as per the standard holding levels of the industry and the Company. Apart from increase in trade receivable and trade payables, we are anticipating and increase in other current assets, including other financial assets and other current liabilities. Accordingly, additional working capital funds are needed for the expansion business. Assuming full subscription and Allotment of the Rights Equity Shares, the Company proposes to utilize up to ₹ 1064.52 Lakhs during the Financial Year 2025-26 and ₹ 2388.5 Lakhs during the Financial Year 2026-27 from Net Proceeds towards funding our working capital requirements.

Detailed rationale for the Issue Price

The Issue Price of the Rights Equity Shares has been determined by the Company after due consideration of various qualitative and quantitative factors, including the nature and scale of the Company's business operations, its financial position, historical performance, prevailing market conditions, future business plans, and the objectives of the proposed Rights Issue. The Issue Price has been fixed at ₹5.00 per Equity Share, being equal to the face value of the Equity Shares, with a view to facilitating timely capital infusion while balancing the interests of existing shareholders.

Qualitative Factors

1. Nature and Diversification of Business Operations

PVV Infra Limited is engaged in infrastructure development, real estate activities and allied businesses, including land development, construction of commercial and residential complexes, technology parks and infrastructure projects. In addition, the Company has been actively involved in steel trading activities, which contributed meaningfully to revenue generation during the financial year 2024–25. The diversified nature of the Company's operations provides multiple revenue streams; however, it also necessitates adequate working capital to support ongoing business activities.

2. Focus on Working Capital and Operational Liquidity

The primary objects of the Issue are to meet working capital requirements and general corporate purposes. The Issue does not involve financing of any capital-intensive project. Considering the working-capital-oriented nature of the fund requirement, the Issue Price has been kept at face value to enable broader participation by existing shareholders and to strengthen liquidity without placing undue financial burden on investors.

3. Market Conditions and Industry Environment

The Company operates in sectors that are subject to cyclical demand, price volatility and execution risks, particularly in infrastructure, real estate and steel trading. Global economic uncertainties, fluctuations in raw material prices and evolving regulatory timelines continue to impact these sectors. The Issue Price reflects these prevailing market conditions and has been conservatively determined to account for such external risks.

4. Need for Prudent Capital Raising

The Company has considered its present scale of operations, existing capital structure and future growth plans while determining the Issue Price. Pricing the Rights Issue at face value is intended to support capital raising in a prudent manner, ensuring that funds are raised efficiently while preserving shareholder value.

5. Transparent Disclosures and Investor Protection

The Issue Price has been determined after making comprehensive and transparent disclosures regarding the Company's business, financial position, risk factors and promoter participation in the Draft Letter of Offer, thereby enabling investors to make an informed investment decision.

Quantitative factors

Some of the quantitative factors which form the basis for computing the Issue Price are set forth below:

1. Basic and diluted earnings per Equity Share ("EPS")
(face value of each Equity Share is ₹5)

Fiscal / Period Ending	Basic EPS (₹)	Diluted EPS (₹)
For six months period ended September 30, 2025 (Unaudited)*	0.25	0.25
March 31, 2025	0.95	0.95

* Not annualized

Note:

(1) Basic EPS: Net profit attributable to equity shareholders divided by the weighted average number of Equity Shares outstanding during the period.

(2) Diluted EPS: Net profit attributable to equity shareholders divided by the weighted average number of Equity Shares outstanding during the period, adjusted for the effect of dilutive securities, if any.

2. Net Asset Value per Share:

Fiscal/Period Ending	Book value per share (₹)
For six months period ended September 30, 2025 (Unaudited)	5.32
March 31, 2025	10.14
March 31, 2024	22.13

Note: Net Asset Value per Equity Share is calculated as net worth divided by the number of Equity Shares issued, subscribed and fully paid-up as at the end of the relevant period.

3. Return on Net-Worth

Fiscal/Period Ending	Return on Net-Worth (%)
For six months period ended September 30, 2025 (Unaudited)	4.66
March 31, 2025	9.40
March 31, 2024	6.07

Although the Net Asset Value per Equity Share as at September 30, 2025 is higher than the Issue Price, the Company has considered prevailing market conditions, business risks, and the objective of facilitating broad-based participation by existing shareholders while raising funds for operational and liquidity requirements.

Regulatory Considerations

The ex-rights price of the Equity Shares, calculated in accordance with Regulation 10(4)(b) of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011, is ₹4.83 per Equity Share. Further, in terms of Regulation 73 of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, the Issue Price shall not be less than the face value of the specified securities.

Accordingly, the Company has fixed the Issue Price at ₹5.00 per Equity Share, being equal to the face value of the Equity Shares.

Conclusion

The Company believes that the Issue Price of ₹5.00 per Equity Share, being equal to the face value, is fair, reasonable and appropriate, having regard to the Company's current business profile, financial position, funding requirements and prevailing market conditions. The pricing is intended to facilitate successful completion of the Rights Issue while supporting the Company's operational requirements and safeguarding the interests of existing shareholders.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the Foreign Investment Promotion Board. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs through the FDI Policy (defined below). The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Policy**”), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy will be valid until the DPIIT issues an updated circular. Further, the sectoral cap applicable to the sector in which our Company operates is 100% which is permitted under the automatic route. The Government has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non- Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non- Debt Instruments) Regulations, 2019 issued by RBI. The FDI Policy, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that

(i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“**Restricted Investors**”), will require prior approval of the Government, as prescribed in the FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India. Please also note that pursuant to Circular no. 14 dated September 16, 2003 issued by RBI, Overseas Corporate Bodies (“**OCBs**”) have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for the issue
